Amendments to the Claims

This listing of the claims will replace all prior versions and listings of the claims.

Listing of Claims:

1. (Currently amended) A composition comprising a polypeptide consisting of an amino acid sequence according to general formula I

polypeptide consisting of an amino acid sequence according to general formula I:

wherein X1 and X3 are independently absent or comprise a transduction domain, provided that at least one of X1 and X3 eomprise is a transduction domain; and wherein X2 is [Z1-Z2-RRA-Z3-AP]_u, wherein

Z1 is absent or is W;

Z2 is absent or is L;

Z3 is selected from the group consisting of S, T, Y, D, E, phosphoserine analogs and phosphotyrosine analogs; and

u is 1-2, wherein when u is 2, the two copies of X2 are optionally separated by a spacer.

- 2. (Original) A pharmaceutical composition comprising the composition of claim 1 and a pharmaceutically acceptable carrier.
- 3. (Withdrawn) An isolated nucleic acid sequence encoding the polypeptide of claim 1.
- 4. (Withdrawn) A recombinant expression vector comprising the nucleic acid of claim 3.
- 5. (Withdrawn) A host cell transfected with the recombinant expression vector of claim 4.

- 6. (Withdrawn) An improved biomedical device, wherein the biomedical device comprises one or more compositions according to claim 1.
- 7. (Cancelled)
